Tested according to
Geprüft nach

ISO 24089:2023

Technical Data and Parameter
Technische Daten und Parameter

The evaluation has been performed acc. to ISO 24089:2023.

The certificate is created for the purpose of providing conformity that the organizational processes for software update engineering achieve the objectives of ISO 24089:2023. Any changes to the processes may require repetition of some of the evaluation steps in order to retain type approval.

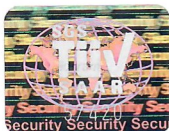

The audit report is an integral part of this certificate. All requirements and specifications of the current valid revision of this report shall be met.

Surveillance
Überwachung

Certificate is valid for the specified version only; surveillance period: surveillance is requested every 3 years.

The certificate is based on voluntary tests. The compliance of the certified product against the requirements of above listed standards was evaluated. Any changes to the design, components or processing may require repetition of some parts of the certification in order to retain the certification. All applicable requirements of the testing and certification regulations of SGS-TÜV Saar GmbH have to be complied, see www.sgs-tuv-saar.com/tcr-muc and www.sgs-tuv-saar.com/qtc-muc.
